Re: Letter of Recommendation for Mike Mitchell and Kevin Monsey, of Monsey
Construction Consulting Service

To Whom It May Concern,

I am pleased to introduce and recommend to you, Mr. Kevin Monsey and Mr. Mike Mitchell. I know both men and have worked along side them on multiple projects in our District and feel well qualified to write this letter on their behalf.

Mike Mitchell served as the Director of Operations in the Carson City School District for seventeen years. It was my privilege to work as his colleague during eight of those 17 years and can vouch for his expertise as a key player of the executive team of the District. His ability to work well with people combined with his experience as an architect has proven to be a winning combination. During his employment with the District, his efforts contributed to the passage and completion of bond construction projects in 2000, 2002, and 2006 totaling \$47,000,000.

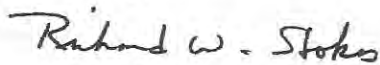

Kevin Monsey and Mike Mitchell became acquainted during several of the District's Bond projects and have become colleagues following Mr. Mitchell's retirement from the District in 2008. Mr. Monsey's expertise is varied and extensive with his expertise being in estimating, construction scheduling, and contract management. Mr. Monsey's work on behalf of Carson City School District was of great benefit due to his management of the change-order process.

More recently, Mr. Mitchell and Mr. Monsey have teamed up and are working as consultants for our District as we attempt to pass another school bond. This process has brought together a citizen's committee to review the District's Facilities Master Plan. Mr. Mitchell and Mr. Monsey have been instrumental in facilitating this work effort for the good of the community. The strength of the process that Mr. Mitchell and Mr. Monsey have developed is the personal outreach that is part of the service these men offer. Whether presenting is to the governing board, a service organization, or directly with community members, you can count on prepared, informed work, and customer service of exceptional quality.

Mr. Mike Mitchell and Mr. Kevin Monsey are admired and respected by our Master Plan Committee and our community. Their work is proof of innovative thinking, quality workmanship, and thoughtful decision making. These men are approachable and demonstrate the uncommon quality of having common sense. They are good communicators and use a people-centered approach to solving problems and in getting things done. We feel very lucky to have them as part of our team.

If I can answer any questions regarding my working relationship or knowledge of these two men, I would welcome the opportunity to speak with you. My contact information is RStokes@carson.k12.nv.us and (775)-283-2100. Best wishes in your future endeavors.

Sincerely,

A handwritten signature in cursive script that reads "Richard W. Stokes".

Richard Stokes
