RE: Kevin Monsey

To Whom it May Concern:

Kevin Monsey came highly recommended to me about five years ago as a project manager. I was in the initial stages of planning and constructing a 10 acre, multi-building, neighborhood shopping center in Sparks, Nevada.

With his construction management expertise and overall ability to handle virtually any situation Kevin was incredibly valuable to the completion of the project. During the permitting and financing phases of the project, Kevin was able to articulate clearly what needed to be accomplished in order for the project to be approved, financed and built. During the construction phase Kevin developed scopes of work, budgets, interacted with subcontractors, inspectors, tenants and the project superintendent.

There is no doubt in my mind that when I build another commercial project, Kevin will be the first person I call for advice and most certainly engage as the project manager.

Please feel free to call me should you have additional questions.

Sincerely,

Steve Hamilton
